Subject line: Have questions about Target Date investments? Vanguard has answers.

Need some help with retirement planning?

There are lots of ways that Vanguard can help, and there are certain types of funds available within your plan that can take the guesswork out of investing.

Target Date Investments

Whether you are already a Target Date investor or you want to learn more before investing, this webinar will help you understand what Target Date Investments are, how they work, and how to select a Target Date investment that may be right for you.

Each webinar lasts an hour and there's no cost to attend. All you need is a computer or device with an internet connection to watch and listen to either the live broadcast or a recorded version OnDemand (for up to one 60 days after the live session).

One of the webinars this month will be conducted in Spanish.

All investing is subject to risk, including the possible loss of the money you invest. Diversification does not ensure a profit or protect against a loss.

Investments in target-date funds are subject to the risks of their underlying funds. The year in the fund name refers to the approximate year (the target date) when an investor in the fund would retire and leave the work force. The fund will gradually shift its emphasis from more aggressive investments to more conservative ones based on its target date. An investment in target date funds is not guaranteed at any time, including on or after the target date.
