Taxable Value Balance Summary

MACOMB COUNTY

2014 IS NOT IN BALANCE
2015 IS NOT IN BALANCE

Below is a summation of the taxable values entered on the subsequent worksheets. The county totals should equal the subtotals for: townships and cities, school districts, and intermediate school districts. The text boxes in the top left-hand corner will indicate if the subtotals balance back to the county, if a 2024 subtotal does not balance back to the county, correct the error in the relevant worksheet. If a 2013, 2014, or 2015 subtotal does not balance back to the county, make no changes unless the imbalance has been caused by a modification of taxable values due to a municipality boundary change or a property reclassification. The LCSA Act, as amended, does not allow for corrections of the 2013, 2014, and/or 2015 taxable values.

issued under the authority of Public Act 86 of 2014, as amended (MCL 123.1353(3))

The Local Community Stabilization Authority Act (LCSA Act), 2014 Public Act 86, as amended, requires the county equalization director to report the commercial personal property and industrial personal property taxable values for each municipality in the county. The 2014 PSP8 is to be used by the county for reporting these personal property stable values.

Additionally, most debt millage calculations cannot be completed for the July property tax billing until the municipality is provided with the calculations required by this workbook.
