Public Act 301 (2010) and PA146 (2006) established the Michigan Green Schools Program. The intent of the Program is to encourage students to participate in activities which help them learn about preserving natural resources, protect the environment and promote energy efficiency and savings. Any K-12, public or private school in Michigan may apply to be designated an “Official Michigan Green School” by submitting an application documenting activities to the designated county coordinator of the program.

Qualified activities in which the school participates earn points toward achieving Official Green School status. Activities must be described on the following pages, and each activity must fit within designated categories (Category A, B, C, D, E, X). Please note that a **minimum of two different activities must be submitted for points in Categories A, B, C, D**; a single activity **may not be repeated** as it will not count toward final point totals.

Please see the “Macomb County Green Schools Program Guidelines” document, available on [www.macomboc.com](http://www.macomboc.com) for a complete description of Categories and qualifying activities.

Green Designation = 10-14 points earned from qualifying activities; Emerald = 15-19 points; Evergreen = 20+ points

Applications may be submitted between January 1 – March 1, 2021. Each application will be evaluated by the Macomb County Green Schools Program Review Panel for adherence to Program Guidelines, content, quality, activity description and applicability to Category, supporting documentation, involvement of a cross section of the school population, community involvement, creativity and evidence of learning. Final determination of designation earned will be made by the Review Panel and decisions are final. All applications will be reviewed and schools will be notified of the outcome.

Schools achieving Green, Emerald or Evergreen status will be honored in the spring of 2021!

**IMPORTANT NOTES for 2020-21!!**

- **Category X, Activity 3 allows schools to have students/families to independently complete the entire activity! We encourage as many participants as possible. The pdf Passport “Book” will be available on our website for individual online or print out completion. We have teamed up with the Huron Clinton Metroparks for this activity, and their staff is available at all park locations to assist your students/families!**
- **Photos submitted to support and enhance a school’s application should be included within a Power Point slide presentation (or another presentation program). Label each slide submitted with the school’s name.**
- **Logo submissions should be sent as an image file email attachment with the Application submission.**
- **Lessons or lesson plans, receipts, examples or other materials submitted to support and provide evidence for a school’s application should be submitted in a single PDF package attachment which is either emailed as an attachment with the school’s Application, shared via a document sharing program, or sent on a flash drive.**
- **See [www.macombBOC.com](http://www.macombBOC.com) and go to Green Schools regularly for more information.**
