2016 Personal Property Summary Report

For Debt Millage Rate Calculations

All submissions must be in Excel format.

This 2016 Personal Property Summary Report is to be used for reporting taxable values for each taxing unit in your county.

Please fill out the following 3 worksheets completely:
PP Values - Co,Twp,City,Vlg
PP Values - SD, ISD, CC
PP Values - Addl Authorities

Please enter 2016 values in columns K through O of each worksheet. Please update 2013 values with the most current values available.

Your county totals should equal the subtotals for townships/cities, for school districts, and for ISDs. A new Balance Summary page makes this check and will indicate whether the three subtotals equal the county totals. If any of the subtotals do not equal the county totals, please correct the data.

Special Notes:

All reported taxable values should include any Renaissance Zone or MCL 211.7d property values for the requested classifications.

For township value calculations - Make sure township values include the values of all villages within the township.

There are several source documents you could utilize for values, such as form L-4025 or the Misc. Totals Report from your software.

For multi-county taxing authorities, enter only your county's values for each taxing authority within your county and indicate in the appropriate column that it is a multi-county authority with an 'IC'. Next to the 'IC' enter the county normally responsible for calculating the MRF for this authority. The county entered there will be responsible for compiling the various county values for the multi-county authority. The compiled values for multi-county authorities will be reported to the State on the Personal Property IC Report that we will provide soon.

For any personal property that was assessed in 2013 as real or utility personal property, but in 2016 is assessed as commercial personal or industrial personal property, exclude the property's 2016 taxable value from the totals and

separately provide the 2016 taxable value of the property.

For any personal property that was assessed in 2013 as commercial personal or industrial personal, but in 2016 is assessed as real or utility personal property, exclude the property's 2013 taxable value from the totals and separately provide the 2013 taxable value of the property.

If you have any questions about this spreadsheet Please contact Darcy at (517) 335-1218

Please submit this spreadsheet as soon as possible, but no later than May 24th. Most debt millage calculations cannot be completed for the July 2016 billing until the calculations required by this form are provided.

Submit spreadsheet to: TreasORTA@michigan.gov
Submit a copy of this report to the county(ies) responsible for IC calculation.
Submit a copy of the new Distribution page to each of your taxing units.

Contact Darcy Marusich or Howard Heideman with questions. Thank you.

Taxable Value Balance Summary

The total taxable value of 1) townships and cities, 2) local school districts, and 3) ISDs should all balance back to the county. Below is a summation of the values entered on the subsequent worksheets. If any total does not balance back to the county it will be identified in red. Please correct any totals that don't balance.

balance.	Ad Valo	rem Roll
