2016 Personal Property IC Summary Report Totals for Multi-County Taxing Units

For Debt Millage Rate Calculations

All submissions must be in Excel format.

This Personal Property IC Summary Report is to be used for reporting 2016 taxable values of multi-county taxing units only.

For each taxing unit levying a millage in more than 1 county, the county equalization director responsible for compiling the taxing unit's taxable value under section 34d shall also compile the taxing unit's information for this report (MCL 211.27e)

We've tried to determine which counties were responsible for reporting the information for each of the multi-county taxing units. We entered the units in this spreadsheet we thought your county was responsible for. If a multi-county taxing unit is listed that you are not responsible for under section 34d, or if you are responsible for a multi-county taxing unit and it is not listed here, please notify Howard or Darcy immediately.

For each multi-county taxing unit listed:

- 1. Compile the required taxable values from each county within the multi-county taxing unit's jurisdiction.
- 2. Total the taxable values reported by the counties for each of the classifications listed in the spreadsheet and enter the totals on the line provided. Use only one line to enter values for any one taxing unit. You do not need to report the total taxable values for each county separately. Report only the total taxable values for the multi-county taxing unit as a whole.

Please fill out the following 3 worksheets completely for any multi-county taxing unit that may be listed there:

PP Values - Co,Twp,City,Vlg PP Values - SD, ISD, CC PP Values - Addl Authorities

Please enter 2016 values in columns K through O of each worksheet. Please update 2013 values with the most current values available.

Special Notes:

All reported taxable values should include any Renaissance Zone or MCL 211.7d property values for the requested classifications.

For township value calculations - Make sure township values include the values of all villages within the township.

For any personal property that was assessed in 2013 as real or utility personal property, but in 2016 is assessed as commercial personal or industrial personal property, exclude the property's 2016 taxable value from the totals and separately provide the 2016 taxable value of the property.

For any personal property that was assessed in 2013 as commercial personal or industrial personal, but in 2016 is assessed as real or utility personal property, exclude the property's 2013 taxable value from the totals and separately provide the 2013 taxable value of the property.

If you have any questions about this spreadsheet Please contact Darcy at (517) 335-1218

Please submit this spreadsheet as soon as possible, but no later than May 24th.

Most debt millage calculations <u>cannot</u> be completed for the July 2016 billing until the calculations required by this form are provided.

Submit spreadsheet to: TreasORTA@michigan.gov
Submit a copy of the new Distribution page to each of your taxing units.

Contact Darcy Marusich or Howard Heideman with questions. Thank you.

COUNTY: Do not distribute this summary sheet until all current year values have been entered on the three subsequent worksheets. IMPORTANT: The local governmental unit requesting debt millage to be levied is required

IMPORTANT: The local governmental unit requesting debt millage to be levied is required under MCL 123.1353 to include the Personal Property Exemption Loss amount in its debt millage calculation.
