MONTHLY TOC HIGHLIGHT

In February, Macomb county encountered some of the season's heaviest snowfall, including 3 blizzard days. Typically, motorists drive with extra caution during adverse weather conditions, including reducing speed, maintaining a larger gap between vehicles, and experiencing longer startup and stopping times. Therefore, in real-time, the Traffic Operations Center (TOC) Engineers of Macomb County Department of Roads deployed predefined Contingency Weather Plans (CWP) to 43 signalized intersections spread within 5 corridors. Deployment of CWP helps maintain traffic progression, thereby reducing rear-end collisions.
